

Final Project

Choose a technology that interests you. Find out as much as you can about it. Where did it originate? How has it evolved? How has it improved our lives? Are there any negative consequences?

Link your home page to the final project page.

All pages must have navigation & a link back to your home page and a banner & footer & navigation on each page.

3 pages

1 page old technology - what and how it was used

1 page new technology- what and how it was used

1 page with analysis: How has it changed society? How has it affected the quality of life? List the pros and cons of the technology. Is this a good thing or has it created new problems? Where do you see this technology in 10 years? Will it be the same or different or not even around anymore?

Each page must have at least 2 images and 125 - 150 words of text. Do not copy and paste someone else's text.

One page needs a video clip or podcast that you do.

Text must be in your own words and sources cited.

You must use at least 3 sources for your information.

1 source from a database

2 sources from web pages/blogs

Due Date: November 2 - presentations 15 minutes each (last day of class)

Topic identified by Wednesday, October 17

Web layout with banner, navigation, and footer by October 22

Information sources identified and posted on the server by October 24

Video or podcast completed by October 29

Notes for presentation by November 1
